Professional Summary

Data Analyst focused on SQL, Power BI, and turning operational data into decisions

- B.S. Data Analytics (WGU, 2026) with hands-on experience using SQL, Power BI, Excel, and Python for analysis and reporting.
- Delivered analysis of SQL Server timeout/error trends and reporting improvements for an enterprise team (contributed to a 20% reduction in timeouts).
- Strong documentation and stakeholder communication, with a troubleshooting mindset built from technical operations and field leadership.

Core Competencies

SQL (MS SQL Server, Oracle, PostgreSQL)
Data Cleaning & Validation
Python (pandas, Jupyter)
Requirements Gathering (Agile/Kanban)
Quality & Documentation

Data Visualization (Power BI, Tableau)
Dashboards, KPIs, and Reporting
Excel (Power Query, PivotTables)
Data Modeling (star schema basics)
Stakeholder Communication

Professional Experience

Azure Data Engineer (ADF / API integration) Intern

Crosswave Solutions, Indianapolis, IN | March 2025 – July 2025

- Updated an ADF pipeline integrating SharePoint, APIs, and SQL database ingestion, improving reliability across multiple sources.
- Strengthened error handling and logging for critical pipeline functions, improving recoverability and run stability.
- Added a Python batching function to increase large API ingestion throughput by ~20%.
- Documented pipeline behavior and ingestion logic to support maintainability and team handoffs.

Software Development Analyst Apprentice

Allegion | New Apprenticeship, Indianapolis, IN | October 2023 - April 2024

- Analyzed SQL Server timeout and error trends (T-SQL, Report Builder/Power BI) and shared findings that contributed to a 20% reduction in timeouts.
- Built and maintained SQL queries and dashboards for DevOps and operational reporting, improving turnaround time and data accuracy.
- Created and managed the team's first Azure DevOps Kanban board, tracking requirements and status across stakeholders to keep work visible and on schedule.

Warranty Analyst

Fuller Engineering, Indianapolis, IN | January 2021 - April 2022

- Expanded preventive maintenance reporting in Excel by incorporating additional historical data (about 50% more), improving analysis and visibility.
- Identified patterns and potential sales leads from maintenance history that supported a 5% increase in sales.
- Coordinated with commercial clients on VFD installation issues, troubleshooting problems to achieve performance satisfaction.

Lead Supervisor

Edwards Electrical and Mechanical, Indianapolis, IN | March 2017 - December 2020

- Led crews across job sites, planning labor/materials, tracking progress, and communicating status and issues to stakeholders.
- Improved productivity by implementing delegation and accountability practices across the team.
- Contributed to improved project profitability and revenue outcomes through planning, scheduling, and resource allocation.

Education

Bachelor of Science in Data Analytics

Western Governors University (WGU) | February 2026

Awards: Excellence Award for Design Thinking, Frank O'Bannon Scholarship, Rise Above Scholarship

Associate of Science in Data Analytics

Ivy Tech Community College | December 2023

Certifications: Oracle SQL Foundations Certification

Awards: Dean's List (4.0 GPA)

Technical Certificate in Data Analytics

Ivy Tech Community College | May 2023

Certifications: AWS Cloud Foundation

Certifications

CompTIA Project+ Certification, Oracle Certified Foundations Associate, AWS Certified Cloud Practitioner
